2013-01-25

-Contact Resources - Active in Albert County (oil well and some drilling)

-SWN - To recommence seismic work on several lines between Moncton and Rogersville

-Corridor Resources to commence work in October/November in the Elgin area. Possible drilling of wells

He would provide what he had to date in terms of mapping.

to provide me a copy of a recent injunction sought by CNR as an example of what to expect.

He mentioned that SWN was working to enhance communication with communities and citizens. They were establishing advisory councils in the Kent County/ Saint Antoine area.

We discussed how we would communicate and explained that situational awareness was important for him to have in order to keep his officials apprised. We agreed to TC the Friday before the 4th Monday of each month. I explained to him that I would be providing CROPS with bi-weekly updates which they would have for their monthly discussions

First TL to take place on Feb 22nd. 11h00 JLW

2013-01-28

Invited (Contact Resources) and (Corridor Resources) to the meeting on Friday in Riverview. planned to attend. No one was available from Contact. JLW

Attempts to reach Windsor were unsuccessful. I left a lengthy message asking someone there to call me back.

2013-01-30

Confirmed by Supt White that I could avail of Vic's services for a week to help update the plan.

Touched base with Tony Vienneau who confirmed he was still coordinating the negotiator's program and also that he will be available to assist with the measured approach as things progress.

Agenda prepared for tomorrow's meeting JLW

2013-01-31

Meeting held in Riverview Detachment with representatives from SWN, Industrial Security Limited and Corridor Resources. Present from the RCMP: Supt Goulet, Insp Warr, Sgt. Audoux. Present were of SWN, Corridor, ISL, Irving Security.

Briefly, SWN advised of their intent to pursue the exploration program which they halted last year, lines primarily in Kent County. Permitting to begin in mid Feb, Well testing commencing around April 1st and actual seismic work in mid-May when the weight restrictions come off the roads. indicated it could even start as late as June. He mentioned the trucks they planned to use were much smaller than the Thumpers used two years ago. He also mentioned that as part of their community outreach plan, they planned to hold an open house in Moncton prior to the work actually commencing. In terms of outreach, they also had a plan to open lines of communication with the community of Richibucto. Of note, no permits have been issued to date

SWN will be holding regular security meetings will keep me apprised of their plans and any developments. They also assured me that all personnel including their sub contractors would have to abide by SWN's security plan and that in the event of an incident, specific standards would be followed to ensure preservation of evidence and recording of information. I asked for a commitment that we would be advised of all incidents and that it was our intention to have a singular investigative team for consistency and thoroughness and that it would be headed by Sgt. Audoux.

In terms of Corridor's plans, they are operating some production facilities at this time but there has been no interest in these and they have never experienced any problems. mentioned they may be doing some seismic and potentially drilling a well in the Elgin area late in the year Oct/Nov. He was to provide me with the contact information for the company which is providing security

for their operations. He didn't have that information with him.

We agreed that for now, I would touch base every two weeks or so as required and once I have the info from Corridor, arrangements will be made to meet them and open lines of communication.

Meeting held after with Sgt. Audoux to discuss next steps and who he would potentially prefer to have on his investigative team. Strategy would be to have those people identified and only stood up if/when necessary. Sgt. Audoux to handle matters until two or more investigators required. JLW.

2013-02-01

Meetings set up for Feb 5th with Operational Readiness Section, Marion Kilburn and Don Stenger. Confirmed that Vic Aucoin would be able to perform the ipdate work on the plan for me next week. JLW

2013-02-04. Received word that a Crown had been appointed to this file. Remi Allard has been assigned responsibility. Insp Warr to make contact. JLW

20130205

Sgt. Audoux and Insp Warr met with Mike Oliver of OR. He has been tasked with developing a mobilization plan and tailor it to what we know are the likely scenarios involved with this issue. Arrangements were made for a follow-up meeting with Supt Maillet of TACT and Sgt John Welcher of ERT on 2013-02-08 to bring them up to date on the status of things, the probability that we may start getting some permitting activity in mid Feb and to get their input on the mobilization plan.

Sgt. Audoux and Insp Warr met with Sgt. Don Stenger of Aboriginal Policing. Sgt Stenger was updated on where activity was planned for this coming year. gt. Stenger was tasked with reaching out to his contacts in the aboriginal communities as well as RMs

with respect to those communities and individuals in them in relation to the shale gas issue. Confirmation received later in the day from Sgt Stenger that he had made contact with the RMs on this.

Sgt Audoux and Insp Warr met with Sgt Lafrance of NSES and CM Marion Kilburn in relation to updating them on the planned activity and devising an acceptable way to record and share intel in relation to this matter and design and dissemination of SITREPS. It was agreed that Marion would provide me Sitreps every two weeks beginning Feb 22nd after our TC which is scheduled for 11. This Sitrep would then form the basis of my report to CROPS for Monday morning PM meetings on the 2nd and 4th Mondays of each month. We agreed that starting off, the intel group would be comprised of Insp Warr, Rob LaFrance, Marion Kilburn, Jacky Audoux, Don Stenger, District 5 GIS. IIU Contacts First meeting T/C to be held on Feb 28th 09h00. John to get TC coordinates out to everyone.

20130207

0900 Insp Warr met with Peter Dowd and Associates the subcontractor who will be performing the permitting for SWN. He confirmed the following;

- The permitting process will commence Feb18th. This involves Dowd employees going door to door to ask residents if they wish to give permission to have their water wells tested. This process will take approx 8 weeks to complete.

- In addition, a Dowd employee will be approaching 16 landowners in the Richibucto area to obtain permission for the seismic crews to work on their private land. Note: this was done two years ago without problems. All landowners were interested at that time.

- As far as he knows, the actual well testing will not start until the permitting is complete.

20130208

Insp Warr and Sgt. Audoux met with Cst Oliver Sgt Welcher and Supt Maillet to discuss needs, strategy going forward if things deteriorate during the summer.

Warr and Audoux met with Chris Guitard. His unit will provide support in terms of upload of investigation reports to ENR. It was also suggested by Mike Oliver that we establish a central repository for email traffic and other docs. This was set up and communicated to all employees engaged in this file. Meeting was also held with DCAS. It was agreed that Marian would continue in the role of analyst for now

20130219.

Sgt. Audoux and Insp Warr met with the GI members from D5 and D11 as well as Sebastian Leblanc of the SEIU. We briefed then on the file, the previous meetings with the companies,

20130223

CROPS update prepared and forwarded for PM meeting Monday

2013-02-27

Meeting held with SWN. Present were Sgt. Mike Landry D5, Sgt. Paul Ouellet D4, Sgt. Jacky Audoux, Insp Warr, from SWN, from Industrial Security, Cape Consulting Ltd. SwN updated their plan and timetable. A discussion took place of the threat environment and risk mitigation strategies. We advised them that a protest was scheduled in Hillsborough on the following Monday but that we expected it to be orderly. Agreement that we would meet in roughly another month. Warr to set a date and advise everyone. Dowd advised permitting to begin Friday March 1st.

Meeting between Audoux, Warr and D11 GIS and Cpl Cyr to discuss the upcoming protest planned for Hillsborough for Monday. Sgt. Audoux will be working with D11 on this matter and will ensure a BN is forwarded to CROPS afterward.

2013-03-01

No ops plan received from Dowd. Calls to find out whether permitting commenced went unanswered. Expect it was delayed as a result of the storm that struck overnight.

Community Advisory Council (CAC)

Mandate and Guidelines

1

Mandate

The Community Advisory Council (CAC) will focus on providing a forum where rational discussions can

be held in a safe environment regarding the natural gas industry and potential in New Brunswick. The

council will serve as an advocate and mechanism through which community members can ask questions

and receive relevant information on the industry. The CAC will also seek relationships with different

levels of government, private sector and non-profit groups to help them the group become further

informed, (presentations from select individuals).

While the CAC may include some recommendations for the natural gas industry, the focus of the CAC's

core work is to provide a broad and informed perspective on natural gas, exploration and potential

extraction in New Brunswick.

Objectives

- Serve as a forum for open and unbiased dialogue
- Complement the public consultation and communication process
- Be a point of input for community insight and concerns
- Provide resources and materials in order to create an informed perspective

Scope

The CAC will foremost be a learning opportunity for outstanding community leaders and will provide a forum for education at the community level. The CAC will not serve as a platform for any one specific interest group, government entity or non-profit organization.

Membership

Participation in the CAC is open to any individual interested in natural gas exploration in New Brunswick.

The council membership will provide an opportunity for equitable representation of the community's interests within a specific geographic area.

The province will have 3 CAC's (Kent North, Miramichi Valley and Central), each of which will be

comprised of 10-12 individuals who despite their personal views are capable of communicating and

educating their community members in an unbiased and open manner.

The membership shall possess the expertise and willingness to devote the necessary time to the

committee, typically 6-8 meetings per year.

The CAC will have a Chairperson and the remaining members will be considered the working group. The

Chairperson may at his/her discretion form an unofficial executive or assign specific tasks/roles in order

to give the CAC further structure.

Community Advisory Council (CAC)

Mandate and Guidelines

2

Roles and Responsibilities

- CAC members are required to attend scheduled meetings.
- Actively participate in CAC discussion and activities.
- Clearly understand the mandate of the CAC channelling input to and from

stakeholders

- Conduct themselves in a professional manner, be polite and cordial to other members as well as

community members

- Responding and providing information in a timely and professional manner
- Provide reports based on eh varying inputs from different stakeholders
- Submit expense and claim forms together with applicable receipts and details to the

Chairperson

Process

- A summary of all CAC meetings and activities is to be prepared.
- Keep a record of attendance. When necessary or requested, confidentiality of individuals will be

respected in the minutes.

- Keep a register of committee member and contact information
- The committee is a matter of public record and names of members can be made public
- Committee members are selected by the regional chair
- Committee members should have the capacity to provide unbiased advice
- Committee member should:
 - o Gather data and identity issues
 - o Flag and prioritize varying concerns
 - o Make recommendations as to who should be consulted or address the group
 - o Suggest factors to be considered
 - o Make recommendations as to potential actions to be taken

Discussion Guidelines

- Focus on interests, not positions
- Focus on issues, not individuals

- Explore varying points of view
- Listen to and understand before speaking
- Ask questions to clarify
- Contribute to and participate in collaborative learning
- Accept that concerns and interests of others are legitimate and real
- Respect each other, one speaker at a time, no interrupting
- Respect the CAC's time, recognize when discussions drift off topic
- The Chairperson will be responsible to ensure these guidelines are adhered to

Notes of Sgt Mike Landry re: Shale gas protest 2013-06-05 route 126

2013-06-05 15:00 hrs

I was asked to attend a rally function on Highway 126 Birch Ridge. The rally consisted on group of local anti shale gas protesters. The rally location was off the main road of the highway where 130 protesters were regrouping.

Previous discussions were made and discussions were that the protest was intended to be very peaceful and well organized with traffic security at the mouth of the driveway at 5944 route 126 Birch Ridge. advised me that they may decide to move the protest from Birch Ridge to where the Geo truck (SWN) were located on Route 126.

Sgt Harry Brown and **Sgt Jacky Audoux** were present at the site with me.

While at the protest site Birch Ridge, I had good conversation explained that everything was going to be legal and peaceful.

Approx. 09:00 Re-opened route 126 for normal traffic.

2013-09-16 S/Sgt Robichaud

shift 08:00-15:00

7:10 At office to prepare for briefing.

08:00 Meeting with Harry and Jacky to go over briefing points.

- We are here to ensure Public Safety and make sure no one gets hurt including our members.

- Sometimes members can get frustrated with decisions and actions taken however let's remain professional. The scenarios that are presented to us are not always black and white and need to be analyzed before decision are taken.

09:45 Call from [redacted] who informs me that the van is leaving on Rte 126 and going as far as when they hit rain, Then they will be finished for the day.

12:50 Informed by Leger (ISL) that water well testing has meeting in at 07:30 in the morning.

13:20 Safety meeting is over for Water Well team in Moncton and they will be heading north shortly.

14:10 Water well testing team are in Rexton one rte north to County line. Informed by [redacted] ISL.

16:00 Briefing with Harry,Jacky,Walter, Eric and Denis hache in preparation for our meeting with [redacted] and his group at 18:00.

17:45 Call received from [redacted] from SWN Security informing me that only 25 people were at the presse conference at the old DNR Camp. Only APTN present as far as media went.

18:00 At JK Irving Center for the Meeting with [redacted] and Company.

18:30 Start of the meeting:

It was explained to them by myself and Sgt Brown on several occasions what our mandate was. Basically ensuring public safety and making sure no one gets hurt. It was also made clear to them by myself that this was not a situation of the RCMP against Them neither.

They asked us if we were SWN or ISL. Sgt Brown again re enforced our mandate and that we were not part of any other companies.

Sgt Brown explained to them that we would not discuss individual arrest with all of them but encouraged anyone to contact him directly to discuss their own files.

They made request to speak with SWN and be shown the permits that they obtained in order to conduct work in the Province of NB. They would also want to see what Chemicals are being used. They seem to think that a deal was made with the individuals that were on the truck on the airport road on the 27th of August, that if they came down from the truck, no charges would be laid against anyone of them.

- [redacted] wants us to verify with Government and find out who has title to land and water. [redacted] was trying to say that they can do what they are doing (protest etc) according to the 1752 treaty.

Mischief was clearly explained to them by Sgt Brown as they wanted to know what would happen if roads were blocked etc...

While we were still in a meeting and in discussion, [redacted] knocked on the table as if to signal that it was time to go. They stoop up and said they had to go and started exiting the room.

[redacted] asked me if we could stop SWN from working while we were in consultations and I said no we could not as we do not controle SWN.

21:20 E-Mail sent to Crops on the result of our meeting.

22:00 end shift
